

TIME FOR LOVERS' LEAVE TAKING

Should Not be Later Than 11 O'Clock.

WHAT SALT LAKERS SAY

CASES DIFFER WHEN ENGAGED OR PROSPECTS GOOD.

Many of the varied are the opinions of Salt Lake residents as to the hour at which a young man should take his leave from the hall tree, walk faltering to the door, and bid the young woman he is calling on "good night." Circumstances, all declare, alter cases. The proper time for a young man to leave on making his first call would be earlier than that of a young man who is engaged or who is a regular caller. General opinion is that a young man should not stay later than 11 o'clock, while a number declare he should depart at 9:30 o'clock, 10 o'clock and 10:30 o'clock.

Of the twelve young, unmarried women interviewed yesterday, nine had an opinion on the subject of what should be thought. One exclaimed, "Oh, heavens! I could not say anything about it, I am not married."

Some say that it would be proper if a young man stayed a few minutes longer than 11 o'clock, provided the father and mother of the young woman do not object and are at home. The discussion of the proper hour for a lover's leave taking grew out of the case of Nellie Rose, the year-old daughter of Mr. and Mrs. George H. Rose, 564 Sonnerby street. For two weeks Nellie has been denied entrance to her home because her mother had set an hour at which her daughter's visitor should leave. The police were called upon to settle the matter. Nellie was entertaining Charles Johnson on May 1, when her mother closed the door and will not let her return until the girl has begged forgiveness.

Depends on Circumstances. Most of the persons interviewed yesterday aver that a young man should use discretion and that fathers and mothers should be lenient. The method of informing a young man when he is staying beyond the proper time, several urged, should be by telling the person directly that the hour was a little later than he imagined.

Here is what some of the persons interviewed say: Mrs. Richard P. Morris—I believe that a young man should not stay later than 10 o'clock. The time could be extended to whatever time they get ready to go, but it should be 10 o'clock. Another thing would be whether the father and mother of the young woman are in favor of the caller. If he is a frequent caller would also alter the circumstances. If the young man stays too late the father or mother should advise him that it is a little later than he thinks.

Mrs. W. H. McIntyre—I do not believe in extremes, but the young man should leave by 10:30 o'clock. Of course circumstances have to be considered, but 11 o'clock should be plenty late enough. Then the parents should be at home and it would depend whether the young man was welcome or not. If he wants to be on the safe side he should leave early.

Judge O. W. Powers—I am so long since I had anything to do with the matter that I do not know what would be the proper hour. Generally speaking as long as I could, I have just asked Mrs. Powers what time would be proper and she said when the young woman gets sleepy. She thought she could stay until 11 o'clock, but I believe there is no great harm in a man staying until 10:30 o'clock or a little later. But by all means the door should not be closed on the young woman if she entertained the young man after the time her mother thought was proper for his departure.

KICKED IN FACE BY HORSE. James Broadwater Has Both Jaw Bones Broken. James Broadwater, living at 231 South Second East street, was kicked by a horse last Friday while in Cumberland, Wyo., which broke both jaw bones. He was walking behind the horse when the animal kicked him with both feet in the face, knocking him over backward. He was unconscious for several hours and had to be driven twenty miles before medical assistance could be secured. He was brought to Salt Lake yesterday and is being attended by City Physician C. F. Wilcox.

SERMON BY TALMAGE.

Doctrinal Discourse is Given in Tabernacle.

At the services held yesterday afternoon in the Tabernacle James E. Talmage delivered an address on the revelations given to the Prophet Joseph Smith and the truthfulness of Mormonism. He referred to the revelations as the word of God revealed to the Saints. He read from the parable of the rich man's son, and urged the Saints to take an active part in the work of their religion.

SERMON GIVEN BY LABOR LEADER

W. D. Mahon Talks to Street Car Men.

In the dim gray hours just preceding dawn yesterday morning, W. D. Mahon, president of the Amalgamated Association of Street and Electric Railway Employees of America, unconsciously preached a sermon to many of the local union men gathered in Federation of Labor hall. "The Crucifixion of Christ" might have been the subject of the speaker, but he was unconsciously preaching a sermon to the masses. He declared that the Savior was killed for commercial reasons.

BETTER BOOSTS NEED OF UTAH

R. W. Sloan Discusses Necessary Advertising.

Utah needs more and better advertising, insists R. W. Sloan, who yesterday with George E. Blair, has just published a book on the resources and possibilities of the state. Within the past few weeks Mr. Sloan has made trips to both the Atlantic and Pacific coasts and his judgment is the result of his observations.

ADVANTAGES IN SIGHT

GREATER POPULATION AND INCREASED WEALTH POSSIBLE.

"Utah is getting plenty of advertising," said he, "but it is not such as will hasten desirable immigration. Among business men familiar with the character of the people in Utah the agitation has had little effect and caused practically no concern; but so far as the material conditions of the state are concerned the people of the country generally are wholly uninformed and there is nothing from which they can get the information unless it shall be from the books just issued by Mr. Blair and myself."

"You can hardly expect people living outside of the state to have any extensive knowledge of its material conditions when gentlemen living here, and in a measure identified with the work of disseminating information favorable to the state, not only do not know much about the state itself, but are free to give it as their digested opinion that Utah is sufficiently advertised by the journals of Utah and the hotels of Salt Lake City. At the recent irrigation congress in Ogden there was hardly a handle in Idaho that had an exhibit of fruit and that had printed matter for gratuitous distribution showing the favorable environment of that section with respect to the particular product exhibited. California and the states of the west are advertising matter; but there was not a line respecting any industry in Utah."

SECRET SOCIETIES

Knights of the Macabees.

The smoke given by Salt Lake tent No. 2 last Tuesday evening was attended by about 50 air knights and friends. A musical programme was rendered, after which refreshments were served. An address was made by E. W. Kelly on the subject of "The Knights of the Macabees." A number of persons made application for membership and a large class is expected for the next evening.

Provo tent No. 23 at the last review cast the vote of the tent for Dr. J. C. State Commander W. F. Gray for supreme alternate. After the review the rooms and a card party was held. Refreshments were served. Among the visitors were Dr. J. C. Hanchett, supreme medical examiner; Mrs. J. C. Hanchett, lady commander of the L. O. T. M. in Utah; and Sir Knight Dix of Salt Lake City tent No. 4.
